

## SHOWHOUSE TOUR

### Linda Benson

Sunroom *(above and preceding page)*

As a lover of layering, Linda Benson had no problem adding texture to the sunroom. She started by installing latticework and wood-trim moldings over some of the existing brick wall. Natural materials—note the bamboo shades, wicker chairs, and sisal rug—keep to the coastal theme. An oil painting crowns the built-in sideboard while coral accents and watercolor paintings adorn the adjacent wall.
